

Executive Summary				
Our analysis identified the top 10 neighborhoods that stand out as the strongest performers based on revenue and popularity. Within these areas, we found the highest revenue property (ID: 49946551), which demonstrates exceptional performance compared to the overall market. Additionally, the data shows that the most popular room size is [1 bedroom], indicating a clear preference among guests. This insight can help guide future investment and marketing strategies to align with demand.
